POP

EVOLUTA

POP

Clean lines. Everyday ease.

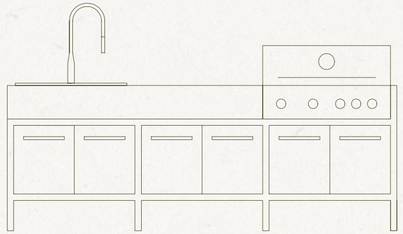

POP is designed for outdoor spaces where the kitchen becomes part of the architecture. Linear, practical and visually calm, it integrates naturally into terraces, covered patios and hospitality settings.

Its character lies in clarity. A strong horizontal composition, generous work surfaces and seamless integration of cooking, washing and storage create a kitchen that feels effortless to use and easy to place within a wider outdoor layout.
POP brings a more relaxed expression to the Evoluta collection.

Less object, more presence within space. It does not ask to stand apart. It is designed to belong, quietly and confidently, within the rhythm of outdoor living.
The proportions are clean, the materials durable, the overall impression refined without excess. Everything is reduced to what matters: function, balance and a lasting visual calm.

Built for daily use outdoors, POP supports preparation, cooking and gathering with simplicity and precision. In residential projects as well as hospitality environments, it offers a composed solution for spaces where architecture, landscape and everyday life meet.

COLOURS & MATERIALS

Every material has its purpose.

Material selection

EvolutaCONCRETE®

Worktops and concrete components

HPL exterior

Standard fronts in ROCK and POP

Material

EvolutaCONCRETE®

Material as a defining design element.
The signature material behind Evoluta's architectural identity.

Through colour, texture and finish,
EvolutaCONCRETE® creates a natural connection between the kitchen and its surroundings.

SELECTED COLORS

Material

HPL Exterior

Versatility in every finish.

Designed for outdoor applications, HPL Exterior brings a refined selection of colours and wood-effect finishes to the ROCK, POP and ForaFuoco collections.

From subtle natural tones to bold contrasts, each finish complements the kitchen's architectural form.

SELECTED COLORS

black | dark oak | natural oak | tortora

TESTED PERFORMANCE

COUNTERTOPS

Kitchen countertops are made of EvolutaCONCRETE®, a proprietary glass fibrereinforcedconcrete(GRC)developed by Evoluta and designed for long-term outdoor use, combining structural stability, durability, fire resistance and architectural clarity. Surfaces are treated with food safety hybrid water-based sealer. EvolutaCONCRETE® was tested according following norms and standards:

EN 15388: Slabs and cut-to-size products for vanity and kitchen tops
EN 14617-1:Apparent density and water absorption
EN 14617-2: Flexural strength
EN 14617-5:Freeze and thaw resistance
EN 14617-6:Thermal shock resistance
EN 14617-4: Abrasion resistance
EN 14617-9: Impact resistance
EN 14617-10:Chemical resistance
EN 1186: Materials and articles in contact with foodstuffs
EN 12720:Surface resistance to cold liquids

FRAME

Kitchen frames are made of powder coated stainless steel grade 304.

FRONTS

Kitchen fronts are made of EvolutaGLASS, HPL exterior and stainless steel.

CABINETS

Kitchen cabinets are made of stainless steel and high-pressure laminates (HPL) for furniture applications.
