ROCK

EVOLUTA

ROCK

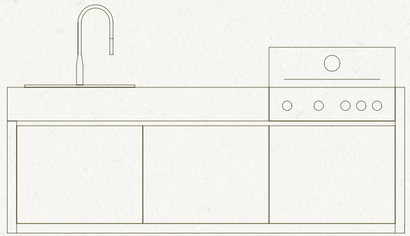

Defined by mass.
Resolved in line.

ROCK is a linear outdoor kitchen shaped by clarity, weight and architectural balance. Its composition is calm and grounded, with strong horizontal surfaces and solid volumes that give the collection a clear sense of permanence.
There is an elemental quality to ROCK.

Not only in its materials, but in the way it occupies space. It feels anchored, stable and composed, like a built extension of the landscape itself. Nothing is excessive. Every line is reduced to what is essential.

Designed for terraces, gardens and covered outdoor settings, ROCK brings together preparation, cooking, storage and cooling within a precise linear arrangement. Its form is generous yet restrained, allowing the kitchen to hold presence without disturbing the wider atmosphere of the space.

The result is a kitchen that feels robust without heaviness, contemporary without appearing temporary.
ROCK is made for outdoor environments where materiality matters.

COLOURS & MATERIALS

Every material has its purpose.

Material selection

EvolutaCONCRETE®

Worktops and concrete components

HPL exterior

Standard fronts in ROCK and POP

Material

EvolutaCONCRETE®

Material as a defining design element.
The signature material behind Evoluta's architectural identity.

Through colour, texture and finish,
EvolutaCONCRETE® creates a natural connection between the kitchen and its surroundings.

SELECTED COLORS

Material

HPL Exterior

Versatility in every finish.

Designed for outdoor applications, HPL Exterior brings a refined selection of colours and wood-effect finishes to the ROCK, POP and ForaFuoco collections.

From subtle natural tones to bold contrasts, each finish complements the kitchen's architectural form.

SELECTED COLORS

black | dark oak | natural oak | tortora

TESTED PERFORMANCE

COUNTERTOPS

Kitchen countertops are made of EvolutaCONCRETE®, a proprietary glass fibrereinforcedconcrete(GRC)developed by Evoluta and designed for long-term outdoor use, combining structural stability, durability, fire resistance and architectural clarity. Surfaces are treated with food safety hybrid water-based sealer. EvolutaCONCRETE® was tested according following norms and standards:

EN 15388: Slabs and cut-to-size products for vanity and kitchen tops
EN 14617-1:Apparent density and water absorption
EN 14617-2: Flexural strength
EN 14617-5:Freeze and thaw resistance
EN 14617-6:Thermal shock resistance
EN 14617-4: Abrasion resistance
EN 14617-9: Impact resistance
EN 14617-10:Chemical resistance
EN 1186: Materials and articles in contact with foodstuffs
EN 12720:Surface resistance to cold liquids

FRAME

Kitchen frames are made of powder coated stainless steel grade 304.

FRONTS

Kitchen fronts are made of EvolutaGLASS, HPL exterior and stainless steel.

CABINETS

Kitchen cabinets are made of stainless steel and high-pressure laminates (HPL) for furniture applications.
